Education

The Oxford College of Engineering, Bengaluru
Bachelor of Engineering in Computer Science (CSE)

2022 – 2026
CGPA: 8.5/10

Technical Skills

Programming Languages: HTML, CSS, JavaScript, Java

Libraries & Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Cloudinary, Clerk Auth, Figma

Soft Skills: Problem-Solving, Strong Communication Skills, Teamwork and Collaboration

Projects

Toolkit.ai — *PostgreSQL, Express.js, React.js, Node.js, Neon, Cloudinary, Clerk* August 2025

- Developed Toolkit.ai, a SaaS platform unifying AI tools for blog/article generation, image creation, object/background removal, and resume analysis, with Clerk handling secure login and payments.
- Designed and maintained RESTful APIs and interactive analytics dashboards for community prompts and uploads, using Cloudinary for image storage and Neon serverless DB for data management, delivering an all-in-one scalable and seamless experience.

Docuno — *MongoDB, Express.js, React.js, Node.js, Cloudinary, Tailwind CSS* April 2025

- Developed a role-based doctor appointment platform with JWT authentication, secure user portals for Patients, Doctors, and Admins, and RESTful APIs for appointment booking, cancellation, and payment processing.
- Maintained separate Admin and Doctor dashboards for profile and appointment management, integrated Cloudinary for media uploads, and deployed the full-stack application on Render for scalable performance.

Parent Sync — *React Native, Node.js, Express.js, MongoDB* February 2025

- Developed a multilingual parent-teacher app with dashboards for teachers and parents, enabling class creation, enrollment, voice/text remarks, and AI parenting tips. Integrated i18next for static and IndicTrans2 for dynamic translations, supporting 20+ Indian languages with offline use in 3 major ones.
- Built real-time features with Firebase Cloud Messaging (FCM), NetInfo, and AsyncStorage for offline sync, reminders, and announcements. Added a multilingual voice assistant and chatbot using AI4Bharat TTS and Gemini API, with Expo, React Native, and AsyncStorage for a local-first, smooth experience.

Achievements

- 2nd Runner-up at a Hackathon – Secured 3rd place in InvokED Innovation 4 Education Equity Hackathon and won a cash prize of 75,000. [Link](#)
- Selected among top 90 teams out of 950+ project ideas at Recurzive V2 International Hackathon, and developed an AI-based SaaS solution during the 24-hour event. [Link](#)
- Participated in Code Debugging at Oxygnite 2K23, demonstrating strong debugging and logical skills. [Link](#)
- Active LeetCode participant with 151+ problems solved and 2 achievement badges earned through consistent problem-solving and coding practice.
